069. *Mary.* 3, 4th Street.

2 A.C. 12th Instant, 4 o'clock P.M.

*By Mary Anderson.*

*To her teacher.*

*From the topics of conversation at the dinner table.*

*Subject: The influence of the environment on artistic appreciation.*

*Mary says:* "In our town, we have a beautiful park where the trees are planted in rows, creating a sense of order and tranquility. This park is not only a physical space but also a mental one, where thoughts and emotions can find a sanctuary.

*She continues:* "The colors of the leaves change throughout the year, each season offering a unique palette. In the summer, the bright greens and yellows dominate, while in the autumn, the rich oranges and reds transform the landscape. The sound of the leaves rustling in the wind adds to the peaceful atmosphere.

*Mary concludes:* "The park is not just a place for leisure; it's a canvas that inspires the artists and writers in our community. It's a reminder of the beauty that surrounds us and the importance of preserving nature for future generations."
May 10. Nancy Oagation, age 95 years. In her sleep. Hester, her daughter, was with her. She was buried in the cemetery of Brownsville. She was a kind and gentle woman, loved by all who knew her. She leaves a loving family behind. May she rest in peace.

192. Proposed improvements, 1918

In a clause which

later arose and in which

I alone took

part, the plan was

later altered, but the

parcels of land

were purchased

from the

 Original

owners, and it was

agreed

that the

improvements

would be

made

as

agreed.
